

DON'T LET UNPLANNED DISRUPTIONS PUT YOU OUT OF BUSINESS!

If you want your company to be resilient to disasters you must protect your assets (people, facilities, technologies and information). You may ask, "Where do we start?"

Integrated

That's where Corporate Contingencies comes in. We have developed over 2400 plans, tested more than 7500 plans, and conducted about 150 Business Impact Analyses. By letting us provide you with our fully-integrated, seven-phase program, multi-disciplined approach, and a tested methodology that works, you will be protecting your assets (people, facilities, technologies and information) and you will never have to be afraid of the next disaster.

Innovative

Whether you are just getting started, well on your way, or just need to fill a gap, we are here to help you save time, money and energy by bringing the very best in the industry to make a difference for your company. We creatively look for the best solutions for your business model. We are adaptive, flexible and bring innovative thinking to the table.

Insightful

We understand how Business Continuity and Disaster Recovery can be like a foreign language – you understand some of what it means – but you'd rather have someone else think about it for you. That's why we want to partner with you. We are passionate about Business Continuity and Disaster Recovery. Let us bring our expertise to your business and help jumpstart your program!
