## SETTING EXPECTATIONS

Regardless of the industry, TFB Solutions understands that there are fundamentally common expectations a business has of Information Technologies:

- It is always **responsive, effective, flexible** and **adaptable**.
- The cost of technologies and technology services are **affordable** and can accommodate the economic changes and challenges of your business.

To meet these expectations, TFB Solutions views all of our clients not as just a customer, but as a partner in success. When we help you succeed, we've succeeded.

## ACHIEVING SUCCESS

TFB Solutions dedicates our opening time together to understand your business while determining your immediate and future needs. By working *with* you to find the best-fit solutions in hardware, software and services, and partnering with other quality vendors and service providers, we deliver exceptional results.

## OUR PROMISE TO YOU

- We promise to find a solution to your needs.
- We will always set reasonable, achievable and realistic expectations.

## OUR SERVICES

TFB Solutions offers a wide range of Information Technology services. Whether you're looking to acquire computer systems, develop a network security strategy, or need a comprehensive data center design and implementation, TFB Solutions is here to help.

## PARTNERING FOR INNOVATION

As a division of ChaseNetwork, Inc., we partner with our sister divisions to provide complementary business services:

Through our Corporate Contingencies division, we have the expertise to implement comprehensive business continuity strategies.

- Complete Program Development
- Enterprise Risk Assessments
- Critical Planning & Execution
